

Dromex

CUT 5 DIPPED GLOVE

58SC

Description

Dromex® Hercules, 58SC high visibility, light duty industrial glove consists of a 100% CUT5 lining, reinforced with HCT (Hybrid coating technology) nitrile coating, providing protection against abrasion, cut, tear and contact heat hazards for 15 seconds at 100°C.

These gloves are suitable for applications of handling and assembly used in the automotive, steel handling, mining, construction work, chemical, as well as oil and gas industries.

The HCT nitrile coating on the full palm, partial wrist and on the back of the gloves gives excellent oil resistance performance and grip, whilst the green high visibility liner makes it easier for workers to see their own hands as well as the hands of their co-workers in low visibility areas, in turn, helps reduce the number of accidents and near misses in the workplace.

The Gauntlet cuff design, also provides ventilation and quick removal of the glove.

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.

Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Compliance & Conformity

Complies with the requirements of CE type examinations EN420 for innocuousness, EN 388 for compliance with directive 89/686/EEC Mechanical Risks (3,5,4,2) and EN 407:2004 (X,1,X,X,X,X) Thermal Risks for Heat & Flame.

Specifications

Style: Wing thumb, dipped glove with textured palm
 Liner: 100% Dromex Cut5
 Palm: HCT (Hybrid coating technology) multilayer nitrile coating 0.12mm ± 5 %
 Back: HCT (Hybrid coating technology) multilayer nitrile coating 0.12mm ± 5 %
 Cuff: Dromex Cut 5, Gauntlet cuff
 Mass: ±133g per pair (size 10)

Packaging, Storage & Obsolescence

Packed 12 pairs per bundle and 120 pairs per carton for shipping. Store in a cool, dry place. Stored correctly, the gloves physical properties will not change for up to three years.

Cleaning & Maintenance

Gloves should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed from the glove. Should this not be possible, it is advisable to ease left and right hand gloves off using the gloved hand and remove the gloves without the contaminant contacting the bare hands.

The gloves may then be decontaminated as indicated below.

In order to maximise the glove life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration.

Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

Sizes Available

Code	Size	Palm Length
58SC-9	M/L	105mm (±2mm)
58SC-10	L/XL	110mm (±2mm)

** As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.*

** Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.*

Measurement Guide

Materials

1. Wing thumb
2. Dipped glove with textured palm
3. Gauntlet cuff
